Dear Parents,

The purpose of this report is to provide vital information to stakeholders within our community. It is Manning Junior High School's expectation to be the best school in South Carolina. The School Improvement Council continues to take an active and positive role in supporting this concept.

During the 2017-2018 school year, at Manning Junior High School, we have continued some of the same initiatives that have proven to be successful. Over half of the students are on the Honor Roll and/or the National Jr. Beta Club. The Future Business Leaders of America (FBLA) Club is in its 2nd year since reorganization. FBLA Students competed on the State Level and will have the opportunity to compete on the National Level in Summer 2018. The Original Six Foundation Afterschool Program is also in its 2nd year and is a program where students work hard to improve their reading and math skills. The students also participate in an Advisory Period each month where they work on various skills, such as: goal setting and test taking strategies. Seventh grade students receive in-class tutoring in all of their core classes while the eighth grade students receive additional help in Algebra 1 and English 1.

Our STEM Program focuses on the academic disciplines in: Science, Technology, Engineering, and Math. The STEM Program offers: Design and Modeling, Robotics, and Automation and Robotics. In addition to this, an introduction to Computer Science (*a high school course*) was offered to our middle school students this year.

Lastly, the students at MJHS continue to take full advantage of Rosetta Stone, an initiative that's in its 2nd year. Rosetta Stone is an interactive computer based program that develops language and literacy. Students at Manning Junior High School have an opportunity to choose from 2 different languages (*Spanish and French*).

All of these wonderful learning opportunities would not be possible without YOU being a part of Manning Junior High School. If you have any questions concerning any of the information within this brochure, please call Terrie Ard, Principal of Manning Junior High School at (803) 435-8195.
